Please join us for the 2023 Annual AIACC Code Academy. We are excited to have our presentation being led by ICC - The International Code Council. This year will focus on the International Existing Building Code (IEBC) which deals with existing construction. We will miss having Bob Schutz with his vast knowledge of the IBC and new construction, but thought it was important to give everyone an update on the 2021 IEBC. You will earn 6 LU/HSW credits. This is going to be a very important topic especially with the adoption of the 2021 IBC taking place in August 2023 by the City of Corpus Christi.
